

# Safari Home Learning Challenge

Think of a safari animal that begins with each of these sounds - ch, l, e, h, z.

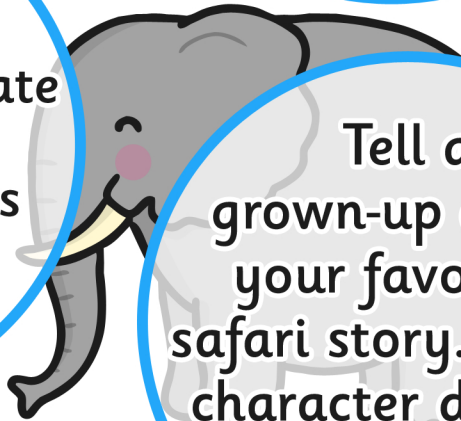

Play this game with your family. Take turns to describe a safari animal and see who is able to guess the answer first.

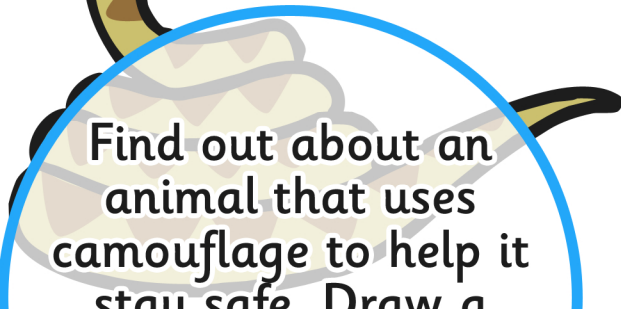

Draw a long snake and decorate it with lots of different colours and shapes.

Tell a grown-up about your favourite safari story. Which character did you like best? Why?

Find out about an animal that uses camouflage to help it stay safe. Draw a picture of its camouflage pattern.

Use some junk modelling materials to make some equipment that will help you when you are on safari. It could be a camera, some binoculars or something else completely different!
